

## SUSTAINABILITY CHAMPION VOLUNTEER

In February 2020, JMSU and LJMU declared a climate emergency. Not only does this acknowledge the importance of sustainability and the need for immediate change to our environmental impact, but it comes with an extensive action plan for both the SU and the institution.

It is the Students' Union's job to amplify the student's voice and ensure that student views across the university are represented. That is why we are looking for enthusiastic and committed student volunteers who are passionate about the environment to help us achieve our climate goals, feedback on green issues, and improve the sustainability of LJMU.

### Role

As a JMSU Sustainability Champion, you will be providing feedback and ideas to directly improve Sustainability at LJMU.

### Responsibilities

- 1) Forming our Green Council, which consists of meeting once every two months.
- 2) Feeding back to the SU and LJMU on any environmental or green issues on their course or across campus.
- 3) Coming up with eco-solutions and ways the institution can change for the better.
- 4) Distributing eco resources and materials throughout their course/building.
- 5) Working with JMSU on Sustainability Week (organising events, promoting, evaluation).
- 6) Helping JMSU to achieve our climate goals.

### Essential Skills & Qualities Required

- Good communication skills
- Ability to problem solve.
- A passion for environmental sustainability
- Time management and decision-making skills
- Initiative and pro-activity
- Positive attitude
